Our Work

Zytech provides Information And Communication Technology (ICT) solutions to all companies, government, and even individual. Our clients are in all around Malaysia.

Our work speaks for itself...

Web Design / Development

Today, most of what we use the web for on day-to-day basis are not just web pages. They are **APPLICATIONS**. It would not be complete for a web application without layout or graphic design on it. And there is no more web pages only website without an application on it. At least there will be contact form for communication purpose.

That is why we combine web design and web application together in one category Web Design / Development. Here are some of the projects that we have worked on so far...

Al-Ahliah.com.my (expired)

Flash Presentation

Flash technology has become very useful nowadays. If in the past we do presentation using slide or maybe more advance we use Microsoft Office Power Point, now we can do presentation more better using flash. With full multimedia support from sound, video, animation and even database and scripting we can enhance our presentation to get attention of the audience. Zytech Enterprise do offers flash presentation services. Here are some of our previous works.

Malaysia Traditional Houses

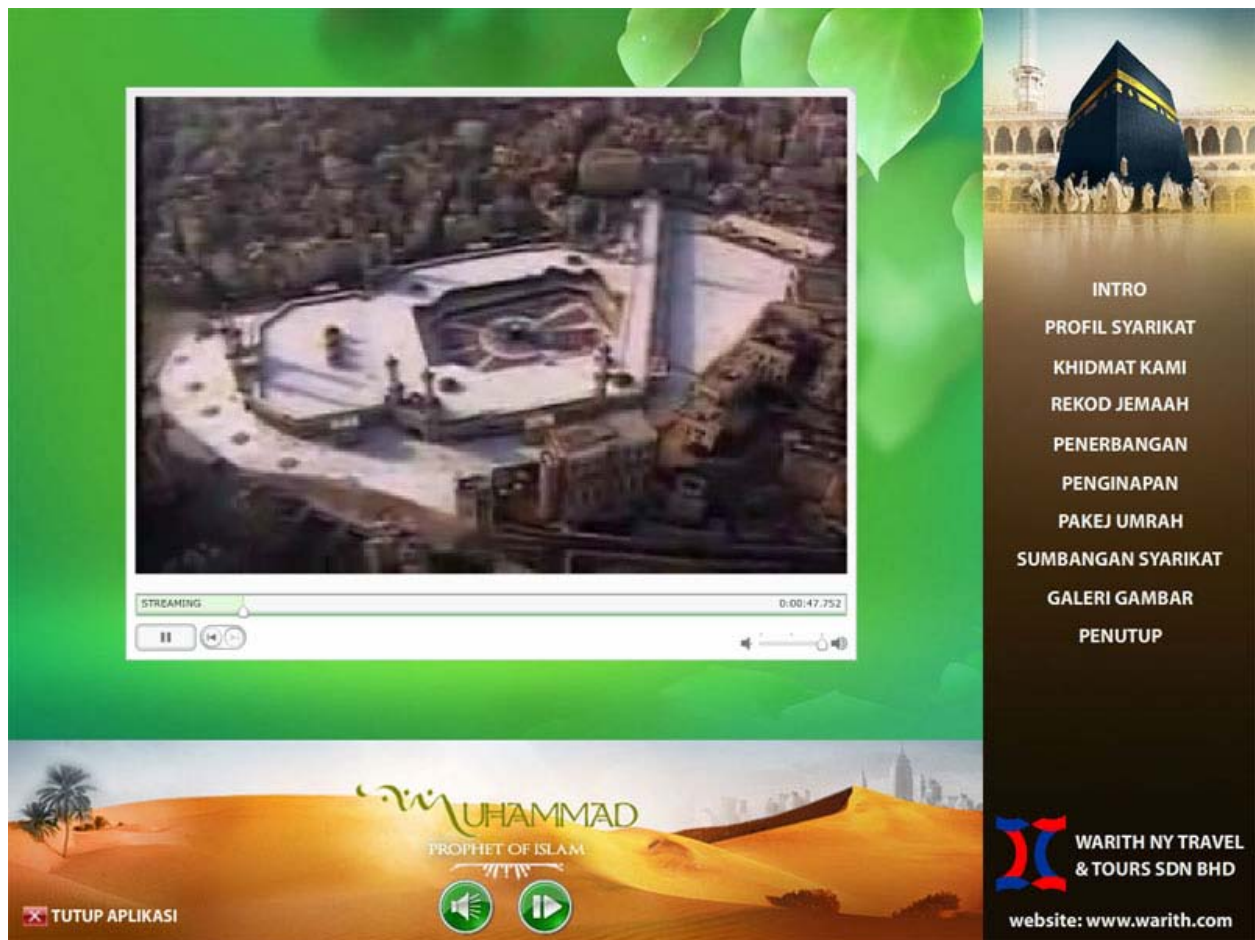

*Can be download at http://www.xpertstudio.net/ext/portfolio/flash/rumah_tradisional.zip

Malaysia Traditional Houses as its name presenting traditional houses in three states Melaka, Selangor, and Negeri Sembilan. Present history, house architectures and photos. With background music from movie Mukhsin theme song – Hujan by Adibah Noor this flash presentation surely brings audience to 'kampung' feels.

Warith

*Can be download at <http://www.xpertstudio.net/ext/portfolio/flash/warith.zip>

Warith NY Travel Sdn Bhd offer Umrah Packages. In order to attract more clients Warith has chosen flash presentation as a medium. This has given them advantage over their competitors.

Featuring video, soundtrack, slide transition effect, playback control, audio control and in full screen, Warith flash presentation absolutely gained audience interest and successfully brings high conversion rate.

Who We Are

We help organizations define and develop business strategies through ICT and provide a platform to deploy these applications. We aim to deliver a low-risk, high-reward solution to all our customers. We help define the core competencies in a business and work side-by-side with our customers to exploit opportunities. By leveraging the existing ICT infrastructure we give companies a quicker, cheaper and effective time to market.

We offer almost all range of ICT from PC maintenance, networking, multimedia, to web applications development to customers from individual to medium enterprise. With great experience in ICT and ICT skills we have, we are able to take care of any customer's ICT needs.

We help our customers by not just providing an ICT solution to their business, but also playing a proactive role in thinking through their solutions. We go out of the way to understand a prospective customer's business and make recommendations about the possible routes his business plan can take and thus increase productivity and reduce cost.

Our History

Started in July 2006 with one person and only offering pc maintenance service, we have growth with more than 3 contract employees and offering more services in ICT. Today we have more than 50 clients. Unlike the funded company rapid growth that many of our peers opted for, we decided to bootstrap ourselves to success. This has helped us keep in tune with what's happening in the industry, moving quickly to leverage new opportunities and keenly focused on customer satisfaction.

Our client list has expanded from Senawang area to all places around Malaysia. And while expanding our client list, we keep on improving our skills to meet today industry needs.

Our Vision

At Zytech, we firmly believe that our vision is the continuing driving force behind our growth. Our desire was, and still is, to build an institution that would outlast our lives, and a strong inclination towards being driven by values.

“We believe that we are in the business of transformation. Therefore at Zytech, we seek to transform peoples for the glory of God.”

- We believe that the ICT has created a new level playing field. We seek to *transform our customers* by helping them use the principles of the ICT to effectively fulfill their business dreams.
- We seek to *transform ourselves* by giving everyone in our team an environment where we can achieve our true potential.
- We seek to *transform society* by using our skills and resources to set people free from poverty, fear and whatever may hold them back from being everything that they ought to become.

Our Values

Even while we embark on the roadmap that we have set ourselves, we seek to uphold the values that define the nature of our relationships with each other. Simply put, they are:

Integrity: Our desire to stick to our commitments whatever the cost.

Excellence: Our continuing drive to be the very best that we can be.

People: Pools of talent that is looking for opportunities. We will provide an environment of Leadership and transparency.

Customer: Exceeding expectations through win / win situation.

Learning: Constant change is a reality. Our plan is to thrive on it.

Community: Our responsibility to build and enrich the community in which we operate.

Our Mission

Our current missions are to:

- ✓ Develop strong portfolio
- ✓ Provide excellent customer service
- ✓ Increase the pace of completing any projects without compromising quality
- ✓ Expand our technological infrastructure and human resource to accommodate our business and customer's needs.
- ✓ Communicate openly to our customers and foster a relationship of frequent feedback and interaction.
